Education

Sree Chaitanya College of Engineering

Bachelor of Technology in Computer Science

Dec 2021 – May 2025

karimnagar, Telangana

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Artificial Intelligence
- Systems Programming
- Software Methodology
- Database Management
- Internet Technology
- Computer Architecture

Experience

Codegnan IT Solutions

Aug 2025- Present

Java Full Stack Developer Trainee

Hyderabad, Telangana

- Trained in Java, Spring Boot, Hibernate, MySQL, HTML, CSS, JavaScript, and React.js to build scalable full-stack applications.
- Developed end-to-end CRUD projects integrating front-end and back-end components with database connectivity.
- Applied Object-Oriented Programming (OOP) concepts, JDBC, REST APIs, and MVC architecture in real-time applications.

Projects

LOMAR APP | *Python, Pandas, NumPy, Scikit-learn, Kernel Density Estimation (KDE)*

Nov 2024-Jan 2025

- * Designed and implemented the LoMar defense algorithm using Federated Learning to enhance model security against poisoning attacks.
- * Collaborated with a cross-functional team to develop KDE-based detection and statistical analysis methods for identifying malicious updates.
- * Coordinated multiple project stages efficiently, ensuring timely progress and smooth integration of technical components.
- * Analyzed experimental results and prepared a detailed project report demonstrating a structured, research-oriented approach..

Indoor Spatial Keyword Query System. | *Java, Database Management Systems*

Nov 2023-Jan 2024

- * Designed and implemented IP-Tree, VIP-Tree, and KP-Tree data structures to optimize indoor spatial queries.
- * Developed algorithms for spatial data indexing and query optimization, improving pathfinding and spatial keyword performance.
- * Collaborated with teammates to evaluate index efficiency and document findings, ensuring timely and structured project completion.

Technical Skills

Languages: : Python, Java, C, HTML, CSS, JavaScript, SQL, MySQL

Developer Tools: VS Code, Eclipse, Google Cloud Platform, Android Studio

Technologies/Frameworks: Linux, GitHub, JUnit, WordPress
